

## The new PU CONNECT is designed to simplify the user experience.

Over the past few years, numerous updates have accumulated without proper organization. We are developing an entirely new software to deliver a better experience.

Microsoft Visual Studio 2022...	0.1%	1,301.4MB
PU Connect	1.1%	30.3MB
PU CONNECT MSFS	0.1%	15.3MB
PU CONNECT		
Steam Client WebHelper(4)	0.1%	174.7MB

## Supported aircrafts in BETA

CDU : ASOBO320, FBW320, FNX3XX, INI320, HEADWIND330, LVFR340, PMDG737, PMDG777, SALTY747

PMO : MSFS general planes, FBW320, FNX320, PMDG737, PMDG777, INI320, INI350,  
HEADWIND330, SALTY747, FBW380

G1000 : All G1000 Planes

We are implementing more planes.

## PU CONNECT requires PU WASM.

Auto-copy is enabled in the Beta version.

- **For new PU CONNECT users:** You need to install PU WASM manually if install button not working.
- **For existing users:** No installation is required.
